## PATENT COOPERATION TREATY

## INTERNATIONAL SEARCH REPORT

(PCT Article 18 and Rules 43 and 44)

International application No. International principation No. INFINEON TECHNOLOGIES AG  This International Search Report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.  This International Search Report consists of a total of	Applicant's or agent's file reference	FOR FURTHER see Notification of	of Transmittal of International Search Report 20) as well as, where applicable, item 5 below.	
Applicant  INFINEON TECHNOLOGIES AG  This International Search Report has been prepared by this international Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.  This International Search Report consists of a total or	S0677 GC/rfu	ACTION	20) do Well do, Wilero applicatio, flori o Below.	
Applicant  INFINEON TECHNOLOGIES AG  This International Search Report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.  This International Search Report consists of a total of	International application No.	International filing date (day/month/year)	(Earliest) Priority Date (day/month/year)	
This International Search Report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.  This International Search Report consists of a total of3 sheets.  It is also accompanied by a copy of each prior art document cited in this report.  1. Basis of the report  a. With regard to the language, the international search was carried out on the basis of the international application in the tanguage in which it was lifted, unless otherwise indicated under this item.  the international search was carried out on the basis of the search was carried out on the basis of the sequence listing.  contained in the international application in written form.  training the great of any nucleotide and/or amino acid sequence disclosed in the international application, the international search was carried out on the basis of the sequence listing;  contained in the international application in written form.  training dispeties with the hashs of the sequence listing;  contained in the international application in written form.  training dispeties with subsequently to this Authority in computer readable form.  training dispeties with the subsequently to this Authority in computer readable form is identical to the written sequence listing has been furnished.  the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.  2 Certain claims were found unsearchable (See Box 1).  Unity of invention is tacking (see Box II).  4. With regard to the litte,  the text is approved as submitted by the applicant.  the text is approved as submitted by the applicant.  the text is approved as submitted by the applicant.  the text is approved as submitted by the applicant.  the text is approved as submitted by the applicant.  the text i	PCT/EP 01/01559	13/02/2001		
This International Saarch Report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.  This International Search Report consists of a total of	Applicant		•	
according to Article 18. A copy is being transmitted to the International Bureau.  This International Search Report consists of a total of	INFINEON TECHNOLOGIES AG			
according to Article 18. A copy is being transmitted to the International Bureau.  This International Search Report consists of a total of				
It is also accompanied by a copy of each prior art document cited in this report.  1. Basis of the report  a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.  the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).  b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international search was carried out on the basis of the sequence listing:  contained in the international application in written form.  filed together with the international application in computer readable form.  furnished subsequently to this Authority in computer readable form.  furnished subsequently to this Authority in computer readable form.  the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.  the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.  Certain claims were found unsearchable (See Box I).  Unity of invention is facking (see Box II).  4. With regard to the title,  The text has been established by this Authority to read as follows:  5. With regard to the abstract,  the text has been established by the applicant.  the text has been established, according to Rule 38.2(b), by this Authority as it appears in Box III. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority.  Charles of the drawings to be published with the abstract is Figure No.  Sequence of the drawings to be published with the abstract is Figure No.  None of the figures.				
It is also accompanied by a copy of each prior art document cited in this report.  1. Basis of the report  a. With regard to the tanguage, the international search was carried out on the basis of the international application in the tanguage in which it was filed, unless otherwise indicated under this item.    the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).    With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international search was carried out on the basis of the sequence listing:   contained in the international application in written form.   filed together with the international application in computer readable form.   furnished subsequently to this Authority in written form.   furnished subsequently to this Authority in computer readable form.   the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.   the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.   With regard to the written sequence listing form is identical to the written sequence listing has been furnished.   With regard to the title,   X	This International Search Report consists of a total of 3 sheets			
a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filled, unless otherwise indicated under this item.    the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23:1(b)).    b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international search was carried out on the basis of the sequence listing:   contained in the international application in written form.   filed together with the international application in computer readable form.   furnished subsequently to this Authority in written form.   turnished subsequently to this Authority in computer readable form.   the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.   the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.
